N1 – Definition of young adult is ages 20-24

N2 – 2022 and 2023 total does not currently reconcile to how 2024 is calculated – generally based on review of the data, it is because there are members that could be categorised in multiple age categories in previous years. This is an FYI and does not impact total member number reporting

N3 – The total number of members are calculated by adding Adult, young adult and juniors – for 2023-2024 duplicates have been removed. This number includes trial members

N4 – This is per the CTC website and cross-matched to active membership reports with status listed below – only active members were counted:

- a. Mark Picken - Active
- b. Col Hood - Active
- c. Jason Metters – Inactive/Not listed
